

Jose Estrella
Web Developer -Mechatronics Engineer
+1 (226) 602 3095 dev.estrella.jc@gmail.com

RESUME SUMMARY

A results-oriented professional blending expertise in web development with a background in Mechatronics Engineering. With a Full stack Developer Certification from Generation Mexico, I bring hands-on experience in Frontend and Backend development, coupled with a strong foundation in technical documentation and project management.

EDUCATION

Generation Mexico, CDMX, Mex (2022) – (2023)
Full Stack Developer Certification

UTZAC, Guadalupe, Zac, Mex (09/2016) – (09/2019)
Mechatronics Engineer

WORK EXPERIENCE

Amerikée (05/2023) – (11/2023)
Frontend Developer

- Collaborated in the creation of user-friendly interfaces for web-based banking, transportation, and entertainment applications.
- Implemented industry best practices and design principles to enhance the usability and visual appeal of web interfaces..
- Worked closely with cross-functional teams to gather requirements, troubleshoots issues, and implement solutions in a timely manner.
- Adapted to evolving project requirements and deadlines, demonstrating flexibility and resilience in fast-paced development environments.
- Acquired valuable insights into fronted development methodologies and emerging technologies through hands-on experience in achieving project goals and delivering high-quality solutions.

Softtek (01/2023) – (04/2023)
Document Writer

- Produced comprehensive technical documentation, including user manuals and API guides, ensuring clarity usability.
- Collaborated closely with team members to gather and streamline documentation processes.
- Implemented best practices for documentation standards and version control.

Freelance (2019)
Full Stack Developer

- Developed and deployed scalable web applications, focusing on Frontend and Backend functionality.

- Implemented responsive design principles to ensure optimal user experience across devices.
- Collaborated with clients to understand projects requirements and deliver solutions tailored to their needs.
- Utilized a variety of technologies and frameworks, including but not limited to HTML5, CSS3, JavaScript, Node.js and MongoDB.
- Employed version control systems such as Git for efficient code management and collaboration.
- Integrated third-party APIs and services to enhance application functionality and performance.

SKILLS

TECHNICAL SKILLS

- Proficient in task tracking tools and effective team communication platforms to streamline projects workflows.
- Demonstrated ability to carry out tasks requiring moderate to strenuous effort, showcasing physical stamina and resilience.
- Utilized manual skills effectively, including operation of tools and machinery for various digital tasks.
- Effectively managed time to prioritize tasks and meet deadlines, contributing to overall team productivity.

SOFT SKILLS

- **Adaptability:** Successfully adjusted to new tasks and environments, demonstrating flexibility in various work settings.
- **Organization:** Maintained cleanliness and order in workspace, showcasing strong organizational skills.
- **Safety Awareness:** Prioritized and adhered so safety regulation and guidelines in the workspace.
- **Communication skills:** Communicated effectively with colleagues and supervisors, ensuring clarity in task execution.
